🎓 EDUCATION

From 2020 to 2023, I pursued a Bachelor of Commerce in General at Sri Saradha College for Women, Thirunelveli

🧠 SKILLS

Frontend Development :
HTML, CSS, JavaScript.

📁 INTERNSHIP

Web Development Intern – Aadi Foundation — Secured the internship through Internshala and gained hands-on experience in web development.

🔑 HOBBIES

Puzzle Solving, Riddle Solving

👤 PROFILE

As a frontend developer, I specialize in HTML, CSS, and JavaScript to build responsive and visually engaging web applications. I craft seamless user interfaces with modern design principles, ensuring cross-browser compatibility and optimal performance. By leveraging JavaScript, I enhance interactivity, implement dynamic content updates, and improve user experience. I collaborate effectively with designers and developers to bring creative ideas to life while staying updated with the latest web trends to build efficient and scalable solutions.

📁 PROJECTS

Personal Finance Tracker Dashboard ✍

- Users can add, edit, and track transactions while setting monthly budgets for different categories.
- Interactive charts (monthly expenses, spending breakdown, budget vs. actual) provide clear financial insights.
- Built using HTML, CSS and JavaScript ensuring a seamless experience across devices with spending warnings for better financial control.

MBBS Abroad Guidance Website ✍

- Provides university rankings, tuition fees, deadlines, and eligibility for MBBS programs abroad.
- Delivers a fast, responsive design optimized for both mobile and desktop users.

GYM Website ✍

- Provides workout plans and membership options for all fitness levels. Designed for a smooth, responsive experience on both mobile and desktop.
- Offers real-time class schedules, easy booking, and personalized fitness tracking. Ensures a motivating atmosphere with high-quality visuals and engaging content.

Yoga Website ✍

- Designed and developed a responsive yoga website with sections for classes, benefits, reviews, and contact details. Ensured a seamless user experience across mobile and desktop devices.
- Integrated engaging content, class schedules, and booking features to enhance user interaction. Focused on UI/UX principles to create a calming and visually appealing design.
